CTA QT MEET 5

2026/2027 | RESULTS EDITION

Progress you can see.

Club racing: Saturday 17 October 2026

Long course (50m) | UWC

Based on CTA results issued 18 October at 16:21.

40	10	16
FASTER THAN ENTRY	TIMES FROM NT	TOP-THREE FINISHES

Every swimmer has a next step.

From putting a time on the board to competing for age-group wins, there is progress here to celebrate. Each swimmer's results connect that effort to a clear goal for what comes next.

OUR APPROACH | TEAM RECAP | MY RESULTS

15 of our 19 swimmers

recorded at least one swim faster than entry.

Progress reaching across the team, alongside 10 timed finishes from NT entries and 16 age-group top-three finishes.

To our swimmers and families: thank you for the effort, commitment and support behind every race. We are proud of this team and excited to keep building together.

Progress across the team

15 of our 19 swimmers recorded at least one faster swim against their listed entry time. Alongside those 40 faster swims, 10 NT entries became recorded race times: useful benchmarks to build on.

Clear goals for the next step

14 swims were at or inside the swimmer's retained target time. Every individual card shows the result, the age-appropriate target and the exact remaining gap where a qualifying time is published.

Looking closely at each swimmer helps us recognise what went well and make the next goal clear for swimmers, parents and coaches.

Every swimmer counts

All 19 swimmers have their own result page. Every one of the team's 90 entries is included, giving families a complete picture of the day and a useful reference for the season ahead.

THE CYBERSMART APPROACH

Every swimmer counts

Personal attention. Visible progress. A clear next step.

At Cybersmart Aquatics, we want every swimmer to feel that their effort matters and that their next goal is within reach. These results show why that individual approach is worth the work.

01 Progress worth recognising

40 swims faster than entry. 10 timed finishes from NT entries. Four age-group wins. Progress takes different forms, and each gives us something useful to build on.

02 Attention to the individual

Every swimmer has a personal highlight and a complete result card. We look beyond the placing to the swimmer's own times, age and goals, so their next step stays personal.

03 Direction for what comes next

Age-appropriate qualifying targets turn a race result into a clear point of reference. Swimmers and families can see the goal and understand how close the swimmer is to it.

The next chapter is built together: swimmers doing the work, coaches guiding the process and families providing the support. Thank you for being part of Cybersmart Aquatics.

REFERENCE

Read the results clearly

Sources checked 18 October 2026 | Results Edition v2

The official result comes first

Result and placing are taken from CTA's report issued 18 October 2026 at 16:21. DQ means disqualified; the exact published reason appears on the card. NS means no show, as recorded in the report; no reason is inferred. An equals sign before a place means a tie.

Entry times are not a personal-best database

Entry times come from the final 17 October programme (07:04). Faster/slower compares the result with that seed. NT means no entry time, so no time gain is calculated. A timed finish from NT provides a race benchmark; it does not establish a measured time improvement or a first-ever time. PB status needs a historical best-time check.

Your existing target level is retained

Targets use the club-approved level and age on the first day of the target championship, rechecked against the supplied birth dates. Dates of birth are not published. The result gap uses this swim only; a slower swim does not cancel an earlier qualifying performance.

Time standard is not the same as full eligibility

0.00s needed means this time is at or inside that event's target. Registration, database and IM requirements and other entry rules still apply. Where no standalone/published QT exists, no artificial target or gap is created.

Report tags and targets answer different questions

LEV2, LEV3 or SANJ beside RESULT are copied from the official report. They reflect its age-group labels and are not a new club assignment. The target comparison can differ because it uses the swimmer's retained level and championship age.

Source check and scope

The club qualifying-times PDF and official SSA v3 rules were retrieved on 18 October and match the references used in Gala Guide v9. All 90 entries reconcile: 84 timed finishes, 4 DQs and 2 NS entries. Top-three means published sex/age-group placing. This booklet covers Saturday; the full meet ran 17-18 October.
