CTA A CHAMPS

2026/2027 | RESULTS EDITION v2

9	45	17
SWIMMERS	INDIVIDUAL PODIUMS	INDIVIDUAL WINS

Small team. Shared ambition.

Five individual podium finishes per swimmer on average. Add 20 swims faster than entry, two top-five high-point finishes and a second-place relay: a weekend of achievements to share.

MY RESULTS | TEAM HIGHLIGHTS | OUR STORY

14-15 November 2026 | UWC | Long course (50m)

Podiums use published age/programme categories; team average, not per-person tally.

THE TEAM IN NUMBERS

A weekend to build on

Nine swimmers | Two days | Complete official report

CYBERSMART AQUATICS

17 / 16 / 12

1st / 2nd / 3rd

45 individual top-three finishes

20

Faster than entry

Across 6 of our 9 swimmers

65

Timed individual finishes

68 official individual result rows

2nd

Women's 200m Free Relay

Cara / Kirsten / Hannah / Katja

More than the podium

Eight swimmers earned at least one individual top-three placing. Lucy's four faster swims add another important part of the story: measurable progress without needing a podium to make it worthwhile.

A complete, transparent record

The official report contains **65 timed individual finishes and 3 NS entries** for Cybersmart. Of the timed finishes, 64 have a matching saved entry seed: 20 were faster and 44 slower. Andrei's additional 200m Freestyle result has no matching listed seed.

All 68 listed individual entries remain accounted for. One has **No published result**; the additional official 200m Freestyle result is also included. That makes 69 individual records across the personal cards, plus the relay result.

A result is a reference point, not a verdict.

Slower swims and missed targets remain visible too. The value is in understanding the race, recognising progress and knowing what to work on next. Faster than entry is not automatically a verified personal best.

Together on the board

Official high-point rankings + the confirmed relay result

Two top-five high-point finishes

4th — **Katja Kimani**

13 & Under Women

150 points | Individual high-point standings

4th — **Connor Woodrup**

13 & Under Men

165 points | Individual high-point standings

Rankings are from CTA's 15 November report through Event 609. These are individual high-point standings, not a club team ranking.

2nd | Women's 14 & Over 200m Freestyle Relay

2:02.33 Event 213

1. Cara Visser
2. Kirsten Cupido
3. Hannah Witten
4. Katja Kimani

Actual line-up and placing are confirmed in the final results. Relay time is a team result, not four individual 50m times.

THE CYBERSMART APPROACH

Every swimmer matters

Personal attention. Honest feedback. A clear next step.

The strongest story is not one number. It is the different ways our swimmers are moving forward - and the attention given to each person's next step.

01 Progress worth noticing

Sophie swam faster than 7 of her 8 entry seeds. Lucy improved on four, including 11.89 seconds in the 400m Freestyle. Progress is recognised across the team, not only at the front of the field.

02 Standards made understandable

Katja's 800m Freestyle was 0.99 seconds inside her retained SANJ target. Hannah's 50m Freestyle is 0.22 seconds from her Youth target. Each card turns the next time goal into something specific.

03 Individual effort, shared achievement

The team collected 17 individual wins and 45 individual top-three finishes in the published categories. Cara, Kirsten, Hannah and Katja then combined for second in the 200m Freestyle Relay.

Swimmers doing the work, coaches guiding the process and families making it possible: that is the partnership we want these pages to reflect.

Discover Cybersmart Aquatics

Pride. Togetherness.

The people behind the performances.

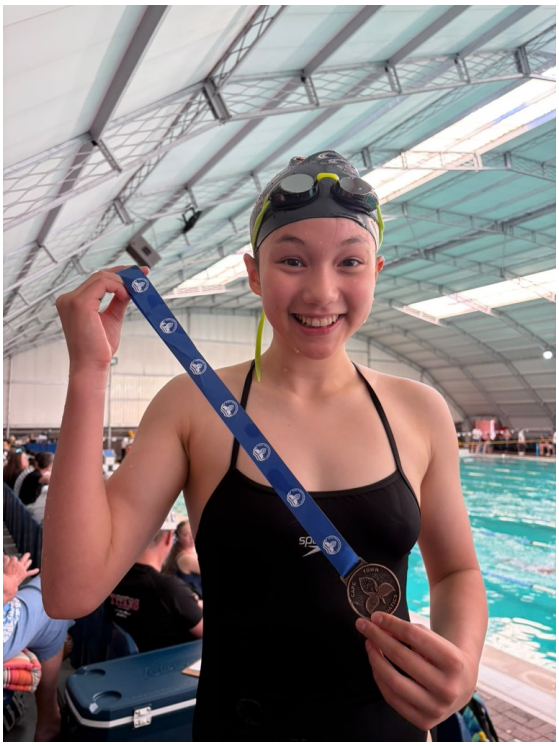
The smiles, the shared celebrations and the support around every race are part of the Cybersmart Aquatics story too.

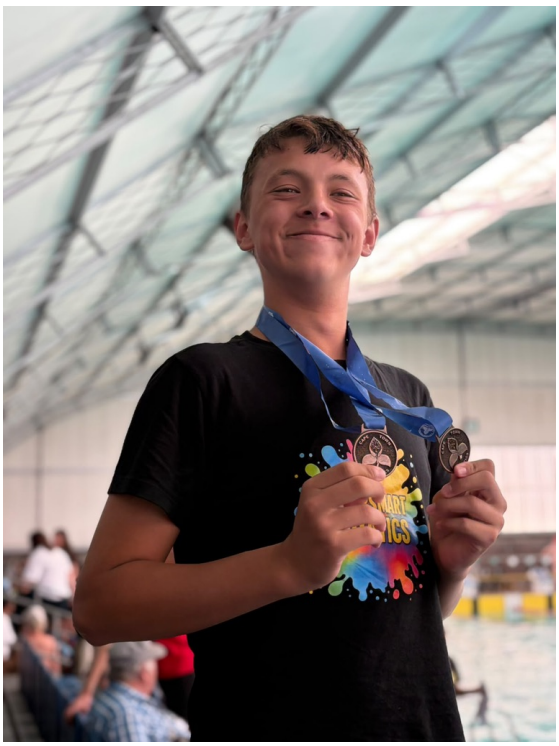
REAL MOMENTS. REAL PROGRESS.

Reasons to smile.

A few moments from a weekend worth remembering.

CYBERSMART AQUATICS





9 swimmers. 45 individual podiums. The team total tells one part of the story; each swimmer brings their own effort, progress and personality.

Connor Woodrup — p21-22
SANJ target | 10 timed finishes

Every personal card includes the official result and placing, published entry seed, faster/slower comparison and the updated gap to the swimmer's club-approved target. Birth dates remain private.

YOUR NEXT STEP

Clear goals, honestly shown

Current SSA v5 | Club-approved target levels retained

Result first, target second

Each gap uses the official long-course result from this meet and the applicable LC standard. If the result is at or inside the target, the card shows 0.00s needed and the margin inside. A slower swim does not cancel an earlier qualifying performance.

Championship age, not just today's age

Target ages are calculated privately on the first day of the target championship. Kirsten uses SANJ age 14 and Connor SANJ age 13. Lucy retains Level 3, as confirmed by Balint. No swimmer has been silently moved to another level.

No invented targets for 50m events

Level 3 and SANJ do not have direct time QTs for the 50m events shown here. Other qualifying-event and database-time requirements still apply. Youth and Senior 50m events do have published time standards.

A time target is not full entry eligibility

Registration, the valid qualifying window, database/IM requirements and all other championship rules still apply. Report tags such as LEV3 or SANJ are reproduced as printed, not used as qualification certificates.

Read the status exactly

NS is the organiser's no-show code; it gives no reason. No published result means an entered swim is absent from the supplied report. Neither is assigned a time improvement or a qualification gap.

SSA v5 comparison dates: Level 3 WC 26-29 March 2027; Youth 22-24 March; SANJ 8-12 April; Senior 14-18 April. Some regional calendar dates conflict with SSA: reconfirm before travel and revisit ages if official dates change.

INDIVIDUAL RESULTS

#607 50m Freestyle — 3rd

RESULT	ENTRY SEED	VS ENTRY
31.37	31.01	0.36s slower

No direct time QT for this 50m event at this target level.

Placings follow the report's age and programme category. Matching a time standard is one requirement, not proof of complete eligibility.

Official results p25, 27, 28 | SSA v5 targets

SOURCE NOTES

Verified, not assumed

Results Edition v2 | Prepared 16 November 2026

CYBERSMART AQUATICS

The complete official results

CTA report issued 16 November 2026 at 17:33, 28 pages. All 68 individual Cybersmart rows were independently checked with two extraction methods; the second-place relay and four names are confirmed on official page 6.

Published entry seeds

Comparisons use the retained CTA v2 entry report dated 9 November (club page 15), the source used for Guide v4. All 68 saved seeds match that source. Seed course, swim date and historical PB status are not certified by the entry report.

The entry/result difference

Andrei's listed #501 1500m Freestyle has no published result. The report instead includes #502 200m Freestyle at 2:04.16, third in Men 17 & Over. Both records are shown, without assuming a substitution, withdrawal or reason.

Rankings and relay evidence

High-point standings come from the 15 November, 16:29 report through Event 609, previously verified in this chat; its relevant rows are retained as a transcription. The relay result and actual order come from the complete 16 November results, not the earlier provisional guide.

Current qualifying references

The currently hosted club QT Guide v3 and official SSA rules v5 (30 October) were re-downloaded on 16 November and byte-matched to the verified references. The legacy club download address returned 403, so the current hosted media address was used.

Counts, categories and privacy

45 individual top-three finishes comprise 17 firsts, 16 seconds and 12 thirds, within the printed age/programme categories; the relay adds a separate second place. The 69 personal records cover 68 listed entries plus one extra result. No date of birth is published. Faster than seed is not automatically a PB.
